**Subject: Facility Response Plans for Magellan Pipeline Company L.P. Southern District  
(Enid Terminal FRP-06-OK-00002, Ft Smith Terminal FRP-06-AR-00053,  
Oklahoma City Reno FRP-06-OK-00115, West Tulsa Terminal FRP-06-OK-00001)**

Dear Mr. Smith:

On behalf of Magellan Pipeline Company, L.P. (MPC), I am herein submitting updated Facility Response Plans for the above reference facilities.

MPC has converted our FRPs to a more conventional Integrated Contingency Plan (ICP) format for the MPC terminals. The DOT-jurisdictional component of the former "Zone Plans" was developed into a separate Pipeline Response Plan (PRP), and then the two discrete planning products (ICPs and PRP) were linked together through an online emergency planning system.

I am enclosing a copy of the ICP's for the MPC Southern District. This new District plan represents a reorganized version of the former Tulsa Response Zone in order to reflect organizational changes within our company. Along with the hardcopy ICP's, I am including Compact Discs which contains the plan in an electronic format. It is my hope that you will agree that the electronic plans are useful supplements to the hardcopy plans.

Please note that we no longer operate the loading rack at the Oklahoma City High Street Terminal FRP-06-OK-00003. Much of the loading rack equipment has been dismantled and removed or used elsewhere. The building structure still remains, but the piping has been flanged off and all loading activities at the facility were discontinued in April of 2001. Therefore, this facility is no longer subject to EPA FRP requirements. It is, however, covered within our DOT Pipeline Response Plan.

If you would like to discuss the details of this submittal, please call me at (918) 574-7309. Please forward all correspondence to my attention at the address indicated above, or by email to [greg.mcmillan@magellanlp.com](mailto:greg.mcmillan@magellanlp.com).

9490525

Sincerely,

A handwritten signature in black ink, appearing to read "Greg McMillan". The signature is fluid and cursive, with the first name "Greg" and last name "McMillan" clearly distinguishable.

Greg McMillan  
Environmental Specialist  
Magellan Pipeline Company, L.P.
